SUPPLEMENTAL PRELIMINARY AMENDMENT

Honorable Director for Patents
Washington, D.C. 20231

Washington, D.C.
February 12, 2003

Sir:

Prior to initial evaluation, please amend this application as follows:

IN THE CLAIMS:

Add new claims 40 and 41.

--40. An apparatus for increasing blood flow to a person's skin using apparatus for regeneration of skin and digestion of adipose cells without causing an increase in gravity effects on the person, comprising a work-out device to be actuated with the person's legs; an air-tight housing enclosing the work-out device, said housing comprising an opening which is formed for tight enclosure of the person in a waist area; a device for producing a differential pressure in said housing, said device being connected with said housing and being arranged so as to alternately produce a pressure reduction and a pressure wherein; and a support means within said housing for removing body weight from the
